The Lark, Shields, from Bangkok left the

baf at 11 s. M. 9th. July. Had a rougf passage,

heavy squalls in the gulf of Siam, off Pulo Obey

and Condors. She encountered many severe

squalls, one of the latter turning into a heavy

gale, which with thick weather and darkness

the Barometer was going down, hourly. Ex-

waited to see what was to come next making

mean while her best for Hongkong. On the

16th: South of the Paracels the wind changed

from 8. W. to West, northerly; she was run

East under foresail & close reefed main sail

from Noon till 7 P.M. when the Barometer, go-

ing down all the time, became stationary

there was a tremendous sea on & blowing very

hard; having then crossed the Southern por-

tion of the Cyclone to the Ed. while the me-

teor was supposed to move westward, -it must

have been of large diameter. At 8 P.M. wind

hours East-& then hauled up gradually to-

wards course on the S. Ed. quadrant of the

gale, the sea very high and irregular, torrents

of rain, the sea breaking over her constantly

filling her decks with water. She proved

herself a fine sea boat not taking any seas

over aft but rising to every one, she filled, her

decks over the bulwarks. She lost 6 hours

being hove-tee off the Holland bank and la-

ter a greater number soudding out of the Ty

down again, ran away from the Cyclone E

phoon. At 4 P.M. found the barometer going

for another 3 hours during which time there

ing both gunwales in the water, and kept the

decks constantly full. If any vessels were to the

To the Editor of the " Daily Press," " Alecia Annie." Batavia. 11th July, 1861.

In Lat. 2:5 N. 22rd July, 1884. gir. - I horewith forward you an account of collision that took took place between the diccia dame and some vessel name unknown, on the above date and nositibu. At about I A.M. the officer of the watch reported

to me that a vessel was in sight on the lee beam on the port tack, the Alecia Annie at the time was on the Starpoard tuck; orders were given to light the port side light which was immediately done, tho ships at this time being from three to four miles distant from each other; a strong breeze was blowing with a disagreable chop sea, the Alceia Amie hend-ing from S. to S. E by E. wind about S. S. W. As the ships drew near I could distinctly see the Whipe foreyard clear to windward of her jibs, with a good night Telescopa. Our portlight had been shown for about 10 minutes, yet there was no notice taken of it, and I was apprehensive we were not seen by any one on board of the other vessel. All hands were called and every thing in readiness for going about, the ships were very near at this time. I ordered the holm to be put down and went into the waist to hail the other vessel to put BRINGHOW. har helm down also, as she appeared to be coming into our amidship, or in between the fore and majornast. They must have beard me call out as

their vessel luffed up, the strong head sea caused the Alecia Annie to got stern way about half her length before slic came round(this saved the ship and all on board.) The other vessel at the same time struck us carrying away bowsprit, jibboom, head, fore topmust, main top gallant mast and every thing attached there to.

I hailed the vessel to remain by us until we goald ascertain the amount of damage done, they did not shawer but I heard some one on board call out to the man steering, to put the helm hard up and let her go full again , this was directly after the ressel struck us. The pumps were strictly attended to but I found the vessel was making no

water all hands employed at once dearing and cut ting away the wreck. Finding the ship so thoroughbly disabled bore a ray for Sarawak, all hands during the day scouring masts. . The 23rd Sighted Po. Point the wind become ing yery light and the water being smooth under the land, commenced rigging jury bowsprit, fore topmast, getting head sails bent, and scouring and staying the masts. 24th All bands still employed. THOS SUTHERLAND. Bunerintellient. Hongroug, 28th July, 1864 PENINSULAR & ORLENTAL STEAM NAVIGATION COMPANY.

In the year 1857 the Directors made a consider able reduction in the Unipacy's rates of Passage Money, which continued in force till 1881. In that year owing to the extraordinary rise in the Cost and Freight of Costs, and the shanned price of all descriptions of Mayai Etores, the Directors were reductantly compelled to return to the rates of Passage Money previously in force. They are now happy to state that a decrease in this price of Cost and other expenses of Steam Navigation enables them to reduce the Company's Passage rates to the undernoted scale, which will
